THE QUANTUM LEAP

Measurement: redefining Health's boundaries?

Following the success of **The Great Healthcare Challenge** in 2011, the Australian Council on Healthcare Standards (ACHS) and the Australian Healthcare and Hospitals Association (AHHA) will join forces with the Women's and Children's Hospitals Australasia in 2012 to bring you – **The Quantum Leap. Measurement: redefining Health's boundaries?**

Whether you work in a healthcare facility or department as a clinician, a clinical leader, a manager or executive, a finance officer or an information officer you are required to measure and assess your outcome. The National Health Reform is set to put this part of your job under scrutiny. This Conference will be exceedingly beneficial and stimulating.

How do we measure individual patient outcomes or population health status? How do we relate financial performance to both utilisation and quality? Do we collect and link our data efficiently to reduce the red tape burden? How will the National Standards, mandatory

from 1st January 2013, influence our administrative and clinical priorities? How will the national entities such as the National Health Performance Authority (NHPA), the Australian Institute of Health and Welfare (AIHW) and the Independent Hospital Pricing Authority (IHPA) plus their state counterparts rationalise their roles? How will they incentivise good performance?

This conference will discuss these questions and highlight the views of key stakeholders.

WHO SHOULD ATTEND?

This conference will appeal to a wide cross-section of the public and private healthcare sectors across rural, regional and metro areas.
