

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 52, Issue 11, 2012, 975–1067

Genotype–environment interaction for post-weaning traits in Nellore beef cattle

D. G. F. Guidolin, M. E. Buzanskas, S. B. Ramos, G. C. Venturini, R. B. Lôbo, C. C. P. Paz, D. P. Munari and J. A. Oliveira 975–980

Effects of subcutaneous administration of caffeine on the physiometabolic profile of low-birthweight neonate piglets

H. Orozco-Gregorio, H. Bonilla-Jaime, D. Mota-Rojas, M. E. Trujillo-Ortega, P. Roldan-Santiago, R. Martinez-Rodriguez, F. Borderas-Tordesillas, S. Flores-Peinado, P. Mora-Medina and R. Ramirez-Necoechea 981–990

Effect of 1,3,5,8-tetrahydroxyxanthone on carcass characteristics and meat quality traits in pigs

Hong-Bo Xiao, Fang Jun and Zhi-Liang Sun 991–997

Whole-farm systems analysis of Australian dairy farm greenhouse gas emissions

K. M. Christie, C. J. P. Gourley, R. P. Rawnsley, R. J. Eckard and I. M. Awty 998–1011

Quantitative trait loci underlying hatching weight and growth traits in an F_2 intercross between two strains of Japanese quail

S. S. Sohrabi, A. K. Esmailzadeh, A. Baghizadeh, H. Moradian, M. R. Mohammadabadi, N. Askari and E. Nasirifar 1012–1018

Modelling genetic covariance structure across ages of mean fibre diameter in sheep using multivariate and random regression analysis

M. Asadi Fozi, J. H. J. Van der Werf and A. A. Swan 1019–1026

Impact of magnesium–sodium supplementation on liveweight gains of young sheep grazing dual-purpose cereal or canola crops

H. Dove, W. M. Kelman, J. A. Kirkegaard and S. J. Sprague 1027–1035

Seasonal reproductive patterns and effectiveness as teasers (ram effect) of Corriedale and Milchschaframs

R. Ungerfeld 1036–1041

Factor XI mutation in normally fertile and repeat breeding Holstein cows in the Middle Anatolian region of Turkey: a financial approach

B. Akyuz, S. Sariozkan and D. Bayram 1042–1045

Genetic parameter estimates for early growth traits in Naeini goat

Hasan Baneh, Mojtaba Najafi and Ghodrat Rahimi 1046–1051

Effects of pistachio by-product in replacement of lucerne hay on microbial protein synthesis and fermentative parameters in the rumen of sheep

S. Ghasemi, A. A. Naserian, R. Valizadeh, A. M. Tahmasebi, A. R. Vakili and M. Behgar 1052–1057

Using gene expression information obtained by quantitative real-time PCR to evaluate Angus bulls divergently selected for feed efficiency

Y. Chen, P. F. Arthur, I. M. Barchia, K. Quinn, P. F. Parnell and R. M. Herd 1058–1067
