

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 58, Issue 3, 2018, 403–600

INVITED PAPERS: AUSTRALIAN SOCIETY OF ANIMAL PRODUCTION BIENNIAL CONFERENCE 2016

Foreword i

Livestock-handling assessments to improve the welfare of cattle, pigs and sheep

T. Grandin 403–407

Hormones, stress and the welfare of animals

A. J. Tilbrook and C. R. Ralph 408–415

Public attitudes predict community behaviours relevant to the pork industry

G. J. Coleman, V. Rohlf, S. R. Toukhsati and D. Blache 416–423

Segmentation of Australian meat consumers on the basis of attitudes regarding farm animal welfare and the environmental impact of meat production

Lenka Malek, Wendy J. Umberger and John Rolfe 424–434

Keeping it ‘inside the fence’: an examination of responses to a farm-animal welfare issue on Twitter

E. A. Buddle, H. J. Bray and W. S. Pitchford 435–444

System impacts of introducing crop grazing into pasture-based systems: the McClymont Memorial Lecture

H. Dove 445–451

Use of barley crops, and combinations of lucerne and Wimmera grass, as pasture for grazing sheep in the semiarid zones of Spain

A. de Vega, O. L. Valiente, G. Olmos and E. Pérez-Calvo 452–458

Off to the right start: how pregnancy and early life can determine future animal health and production

K. L. Gatford, C. T. Roberts, K. L. Kind and P. I. Hynd 459–475

Sex selection in layer chickens

T. J. Doran, K. R. Morris, T. G. Wise, T. E. O’Neil, C. A. Cooper, K. A. Jenkins and M. L. V. Tizard 476–480

RESEARCH PAPERS

Genetics and Genomics

Impact of conformation traits on functional longevity in South African Holstein cattle

V. E. Imbayarwo-Chikosi, V. Ducrocq, C. B. Banga, T. E. Halimani, J. B. Van Wyk, A. Maiwashe and K. Dzama 481–488

Nutrition and Metabolism

Development of mathematical models to predict calcium, magnesium and selenium excretion from lactating Holstein cows

K. Taylor, J. A. D. Ranga Niroshan Appuhamy, J. Dijkstra and E. Kebreab 489–498

Effect of replacing palm fat with high-linoleic cold-pressed rapeseed or sunflower cakes on fatty acid biohydrogenation in an artificial rumen (Rusitec)

H. Benhissi, I. Beltrán de Heredia and A. García-Rodríguez 499–506

Dose-dependent effects of probiotic supplementation on bone characteristics and mineralisation in meat-type female turkeys

E. Tomaszewska, M. Kwiecień, P. Dobrowolski, R. Klebaniuk, S. Muszyński, M. Olcha, T. Blicharski and E. R. Grela 507–516

Continued on next page

Enteric methane emissions, intake, and performance of young Nellore bulls fed different sources of forage in concentrate-rich diets containing crude glycerine

A. F. Ribeiro, J. D. Messana, A. José Neto, J. F. Lage, G. Fiorentini, B. R. Vieira and T. T. Berchielli 517–522

Intake of milk and pasture and growth rate of calves reared by cows with high or low potential for milk production

F. J. Roca Fraga, N. Lopez-Villalobos, N. P. Martin, P. R. Kenyon, S. T. Morris and R. E. Hickson 523–529

Effects of *Saccharomyces cerevisiae* and rumen bypass-fat supplementation on growth, nutrient utilisation, rumen fermentation and carcass traits of lambs

R. S. Bhatt, A. Sahoo, S. A. Karim and Y. P. Gadekar 530–538

Feed Quality, Nutritional Value and Toxicology

Stylosanthes cv. Campo Grande silage and concentrate levels in diets for beef cattle

T. C. da Silva, O. G. Pereira, R. M. Martins, M. C. N. Agarussi, L. D. da Silva, L. D. A. Rufino, S. C. Valadares Filho and K. G. Ribeiro 539–545

Potato processing waste in beef finishing diets; effects on performance, carcass and meat quality

J. L. Duynisveld and E. Charmley 546–552

Effects of the citrus flavonoid extract Bioflavex or its pure components on rumen fermentation of intensively reared beef steers

A. R. Seradj, A. Gimeno, M. Fondevila, J. Crespo, R. Armengol and J. Balcells 553–560

Performance and metabolism of dairy calves fed starter feed containing citrus pulp as a replacement for corn

C. E. Oltramari, G. G. O. Nápoles, M. R. De Paula, J. T. Silva, M. P. C. Gallo, M. C. Soares and C. M. M. Bittar 561–567

Accumulation and depletion of indospicine in calves (*Bos taurus*) fed creeping indigo (*Indigofera spicata*)

Mary T. Fletcher, Keith G. Reichmann, Selina M. Ossedryver, Ross A. McKenzie, Phillip D. Carter and Barry J. Blaney 568–576

Environment, Production Systems and Management

Changes in carbohydrate and protein fractions during ensiling of alfalfa treated with previously fermented alfalfa juice or lactic acid bacteria inoculants

L. Tao, H. Zhou, N.-F. Zhang, B.-W. Si, Y. Tu, T. Ma and Q.-Y. Diao 577–584

Meat Science and Product Quality

Isolation and characterisation of acid- and pepsin-soluble collagen from the skin of *Cervus korean* TEMMINCK var. *mantchuricus* Swinhoe

Gaurav Lodhi, Yon-Suk Kim, Eun-Kyung Kim, Jin-Woo Hwang, Hyung-Sik Won, Whangi Kim, Sang-Ho Moon, Byong-Tae Jeon and Pyo-Jam Park 585–594

Rural Development

Contract bonus systems to encourage biosecurity adoption on small-scale broiler farms in Indonesia

Anak Agung Sagung Putri Komaladara, Ian Patrick and Nam Hoang 595–600
