

ANIMAL PRODUCTION SCIENCE

CONTENTS Volume 59, Issue 5, 2019, 801–1000

Review

Dehorning and welfare indicators in beef cattle: a meta-analysis

M. E. A. Canozzi, A. Mederos, S. Turner, X. Manteca, C. McManus, S. R. O. Menegassi and J. O. J. Barcellos 801–814

Genetics and Genomics

Genome-wide detection of copy-number variations in local cattle breeds

Rosalía Di Gerlando, Maria Teresa Sardina, Marco Tolone, Anna Maria Sutura, Salvatore Mastrangelo and Baldassare Portolano 815–822

Modelling non-additive genetic effects using ridge regression for an Angus–Nellore crossbred population

C. D. Bertoli, J. Braccini Neto, C. McManus, J. A. Cobuci, G. S. Campos, M. L. Piccoli and V. Roso 823–834

Genome-wide scan of fat-tail sheep identifies signals of selection for fat deposition and adaptation

S. Mastrangelo, B. Moioli, A. Ahbara, S. Latairish, B. Portolano, F. Pilla and E. Ciani 835–848

Physiology, Endocrinology and Reproduction

Electroencephalographic and blood parameters changes in anaesthetised goats subjected to slaughter without stunning and slaughter following different electrical stunning methods

A. B. Sabow, Y. M. Goh, I. Zulkifli, M. Z. Ab Kadir, U. Kaka, K. D. Adeyemi, A. A. Abubakar, J. C. Imlan, M. Ebrahimi and A. Q. Sazili 849–860

Cryopreservation of epididymal and ejaculated bull spermatozoa

A. M. Raseona, T. L. Rammutla, K. Kalobo and D. M. Barry 861–864

Treatments with eCG and courtship behaviour in rams during the breeding and the non-breeding seasons

Rodolfo Ungerfeld, Neftalí Clemente and Agustín Orihuela 865–869

Nutrition and Metabolism

Pyrosequencing-based analysis of the complex microbiota located in the gastrointestinal tracts of growing-finishing pigs

J. Wang, Y. Han, J. Z. Zhao, Z. J. Zhou and H. Fan 870–878

Energy and protein requirements of crossbred Holstein × Gyr calves fed commercial milk replacer and amino acid supplement

J. C. C. Chagas, M. A. Ferreira, M. M. Campos, F. S. Machado, L. C. Silva, A. Faciola and M. I. Marcondes 879–886

Dietary calcium requirements of Sheldrake ducklings from 1 to 21 days of age

Y. W. Zhu, X. X. Jiang, J. Wen, W. C. Wang and L. Yang 887–890

Feed Quality, Nutritional Value and Toxicology

Effects of feeding wheat or corn and of rumen fistulation on milk production and methane emissions of dairy cows

P. J. Moate, S. R. O. Williams, M. H. Deighton, M. C. Hannah, B. E. Ribaux, G. L. Morris, J. L. Jacobs, J. Hill and W. J. Wales 891–905

Replacement of rice straw with cassava-top silage on rumen ecology, fermentation and nutrient digestibilities in dairy steers

Bounnaxay Viennasay, Metha Wanapat, Khampanat Phesatcha, Burarat Phesatcha and Thiwakorn Ampapon 906–913

Intramuscular fatty acid profile of feedlot lambs fed concentrates with alternative ingredients

Pilar Gómez-Cortés, Olalla O. Galisteo, Carmen Avilés Ramírez, Francisco Peña Blanco, Miguel Angel de la Fuente, Nieves Núñez Sánchez and Andrés L. Martínez Marín 914–920

Behaviour, Well-being and Health

Learned behaviours lead to bone ingestion by phosphorus-deficient cattle

R. M. Dixon, M. T. Fletcher, K. L. Goodwin, D. J. Reid, D. M. McNeill, K. W. L. Yong and J. C. Petherick 921–932

Continued on next page

Trimming and production losses associated with bacterial arthritis in lambs presented to an abattoir in southern Australia

Joan Lloyd, Johann Schröder and David Rutley 933–937

Resistance to the tick *Rhipicephalus microplus* and *Babesia bovis* infection levels in beef heifers raised in an endemic area of Sao Paulo state, Brazil

A. M. Maiorano, R. Giglioti, M. C. S. Oliveira, H. N. Oliveira, J. N. S. G. Cyrillo, M. E. Z. Mercadante and J. A. I. I. V. Silva 938–944

Omega-3 fatty acids and meloxicam supplementation and the incidence and histopathological changes associated with femoral head syndrome in broilers

Suriya Sooksong, Nopadon Pirarat and Kris Angkanaporn 945–953

Effects of pre-slaughter ascorbic acid administration on some physiological stress response and meat quality traits of lambs and kids subjected to road transport

Muammer Saribey and Serhat Karaca 954–964

Production Systems in Transition

Age and body condition effects on meat quality of camels (*Camelus dromedarius*) in eastern Ethiopia

Ali Seid, Mohammed Yusuf Kurtu and Mengistu Urge 965–971

Meat Science and Product Quality

Relationship between pork fatty acid content in selected muscles and carcass tissues

Monika Sobol, Stanisława Raj and Grzegorz Skiba 972–985

Meat and carcass quality of Dexter cattle compared with that of suckler, Charolais-cross calves: a preliminary study

K. Giller, I. D. M. Gangnat, P. Silacci, J. Messadene-Chelali, M. Kreuzer and J. Berard 986–992

Technology and Education

Dual energy X-ray absorptiometry is a valid tool for assessing *in vivo* body composition of broilers

Camila Angelica Gonçalves, Nilva Kazue Sakomura, Edney Pereira da Silva, Silvana Martinez Baraldi Artoni, Rafael Massami Suzuki and Robert Mervyn Gous 993–1000
