LIVESTOCK AND DUAL-PURPOSE CROPPING SYSTEMS

Foreword

Dual-purpose cropping: the opportunity for a step change in production in the temperate region of Australia

S. R. McGrath, D. T. Thomas and A. W. Greer i–iv

Livestock production systems utilising dual-purpose crops

Utilising dual-purpose crops effectively to increase profit and manage risk in meat production systems

S. R. McGrath, R. Behrendt, M. A. Friend and A. D. Moore 1049–1061

Systems grazing sheep on dual-purpose crops in autumn and winter

Utilising dual-purpose crops in an Australian high-rainfall livestock production system to increase meat and wool production. 1. Forage production and crop yields

S. R. McGrath, C. S. Pinares-Patiño, S. E. McDonald, J. A. Kirkegaard, R. J. Simpson and A. D. Moore 1062–1073

Utilising dual-purpose crops in an Australian high-rainfall livestock production system to increase meat and wool production. 2. Production from breeding-ewe flocks

S. R. McGrath, C. S. Pinares-Patiño, S. E. McDonald, R. J. Simpson and A. D. Moore 1074–1088

Utilising dual-purpose crops to produce prime lambs: comparison of White Dorper and Merino sheep on crops and pasture

S. R. McGrath, S. H. Street, G. L. Krebs, F. Ataollahi, M. S. Bhanugopan and M. A. Friend 1089–1103

Systems utilising spring-sown canola

Spring-sown winter-type canola (*Brassica napus*) as summer–autumn forage for sheep production in southern Australia

M. C. Raeside, J. Byron, F. Cameron, C. MacDonald, D. L. Partington, G. A. Kearney and R. Behrendt 1104–1115

Effect of grazing different forage systems prior to and during mating on the liveweight, condition score, conception and reproductive rate of maternal-composite ewe lambs

M. C. Raeside, J. Byron, F. Cameron, C. MacDonald, S. Rochfort, D. L. Partington, G. A. Kearney and R. Behrendt 1116–1128

Effect of defoliation on spring-sown winter-type canola (*Brassica napus*) grain yield, quality and morphology

M. C. Raeside, J. Byron, F. Cameron, C. MacDonald, D. L. Partington, G. A. Kearney and R. Behrendt 1129–1136

The impact of ewe lamb mating and different feeding strategies over summer–autumn on profit and risk: a case study in south-west Victoria

J. Tocker, R. Behrendt, M. Raeside and B. Malcolm 1137–1150

Systems finishing lambs on pastures in spring and summer

Liveweight and carcass characteristics of White Dorper and Crossbred lambs grazing lucerne, subterranean clover, biserrula or a choice of subterranean clover plus biserrula in southern Australia

S. R. McGrath, G. A. Sandral, L. Sundermann, J. C. Quinn, L. A. Weston and M. A. Friend 1151–1159

Lamb growth rates and carcass characteristics of White Dorper and crossbred lambs grazing traditional and novel pastures during spring in southern Australia

S. R. McGrath, G. A. Sandral, B. W. B. Holman and M. A. Friend 1160–1169

Sodium deficiency in lucerne (*Medicago sativa*) forage in southern Australia and the effect of sodium and barley supplementation on the growth rate of lambs grazing lucerne

M. R. Champness, J. I. McCormick, M. S. Bhanugopan and S. R. McGrath 1170–1180

Continued on next page

Feeding lambs proportional mixtures of lucerne (*Medicago sativa*) and forage brassica (*Brassica napus*) grown under warm and dry conditions

Z. N. Nie, L. Slocombe, R. Behrendt, M. Raeside, S. Clark and J. L. Jacobs 1181–1188

Cattle production utilising dual-purpose cropping systems

Dual-purpose crops: the potential to increase cattle liveweight gains in winter across southern Australia

J. I. McCormick, J. W. Paulet, L. W. Bell, M. Seymour, M. P. Ryan and S. R. McGrath 1189–1201
