Volume 62 Issue 18 2022

Perspectives on Animal Biosciences

- A perspective on animal welfare of grazing ruminants and its relationship with sustainability
M. Jordana Rivero and Michael R. F. Lee 1739–1748

Genetics and Production

- Associations of digestibility with phenotypic and genetic variation in methane production in Angus cattle
H. C. Smith, R. M. Herd, K. A. Donoghue, T. Bird-Gardiner, P. F. Arthur and R. S. Hegarty 1749–1756

Metabolism, Reproduction and Feed Quality

- Increasing levels of microalga supplementation in diet on *in vitro* ruminal biohydrogenation and fermentation
Murat Say and Selma Büyükkılıç Beyzi 1757–1765

- Calcium and magnesium supplementation of ewes grazing pasture did not improve lamb survival
Susan M. Robertson, Shawn R. McGrath, Samuel Scarlett, Marie Bhanugopan, Janelle E. Hocking Edwards, Emma Winslow, Serina Hancock, Andrew N. Thompson, Gordon Refshauge and Michael A. Friend 1766–1776

- Implications of negative energy balance in lactating Barki and Rahmani ewes
M. M. Anwar, M. Y. El-Mokadem, T. A. Ramadan, A. N. M. Nour El-Din, T. A. Taha, M. A. Sharaby, M. H. Salem and A. M. A. Rashad 1777–1788

Nutrition and Meat Quality

- Effects of dietary flaxseed oil with or without products with antioxidant properties on pig performance, carcass characteristics, meat quality and oxidative stability
Daniela Miotto Bernardi, Teresinha Marisa Bertol, Arlei Coldebella, Anildo Cunha Junior, Bárbara Cristina Silveira-Almeida, Juliana Bürger Rodrigues, Daniel Barrera-Arellano, Helena Teixeira Godoy, Adriana Dillenburg Meinhart, Leandro Daniel de Paris and Valdemiro Carlos Sgarbieri 1789–1804

- Effects of physical form and wheat straw level in the diet on growth performance, nutrient digestibility, rumen papillae morphometry, and carcass characteristics in Lohi lambs
M. A. Sohail, M. A. Rashid, H. F. Habib, M. I. Malik, M. S. Yousaf and H. Rehman 1805–1815

Production Systems and Big Data

- Systematic analysis of experimental data on productive and reproductive traits of Brazilian dairy herds compared with breeders' association records
Ícaro Rainyer Rodrigues Castro and Marcos Inácio Marcondes 1816–1829

Management and Health

- Variability in practices for drinking water vaccination of meat chickens against infectious laryngotracheitis
Peter J. Groves, Awol M. Assen, Ashley Etherington, Mark Stillman, Sheridan Alfirevich, Priscilla F. Gerber, Alex-Kate Langfield and Stephen W. Walkden-Brown 1830–1838
