

Contents

Volume 63 Issue 13 2023

Review

- Risk management in pig farming: a reality or conjecture? A systematic review
Fabiano Gregolin and Késia Oliveira da Silva Miranda 1261–1271

Genetics and Breeding

- Selection for yearling growth rate in Angus cattle results in bigger cows that eat more
R. M. Herd and V. H. Oddy 1272–1287

Reproduction Technology

- Effects of hydroxyapatite nanoparticles on the vitrification of bovine metaphase II oocytes
Yi-Heng Liu, Xiao-Jing Wang, Jia-Qi Liu, Shi-Yu Zhao, Zhi-Qian Xu, Xiao-Xia Li, Ying-Hua Li and Xue-Li Yu 1288–1295

Nutrition and Metabolism

- Manipulating omega-3 and omega-6 fatty acids in sheep: depletion of long-chain omega-3 polyunsaturated fatty acids by feeding different grain types
R. D. Taylor and E. H. Clayton 1296–1309

Production Systems, Management and Modelling

- An investigation of pathways for rebuilding Australia's sheep flock
F. D. Brien, R. L. Pitchford, S. P. Vogt and D. J. Koopman 1310–1323

- Effects of shading on tropical grass characteristics and cattle performance in silvopastoral systems: systematic review and meta-analysis
Alan Figueiredo de Oliveira, Guilherme Lobato Menezes, Lúcio Carlos Gonçalves, Vânia Eloisa de Araújo, Matheus Anchieta Ramirez, Roberto Guimarães Júnior, Diogo Gonzaga Jayme and Ângela Maria Quintão Lana 1324–1339

- Twinning in cattle: a pathway for reducing the methane intensity of beef
J. N. Gebbels, M. E. Kragt and P. E. Vercoe 1340–1348

Animal-Sourced Product Technology

- Preparation process optimisation, structural characterisation and stability analysis of sika deer blood–selenium chelate
Li-wen Tang, Xiao-chen Gao, Yao Sun, Tian Tian and Sheng Li 1349–1360
