Historical Records of Australian Science, Volume 27 Number 2

Lloyd Thomas Evans 1927–2015

## Supplementary Material 1 Bibliography: Lloyd Thomas Evans

### 1951

1. **Evans, L.T.** Changes in the salt content of some saline soils at Lake Ellesmere in Canterbury *N.Z. J. Sci. Technol.* 33A (1951), 81-86

### 1953

2. **Evans, L.T.** The ecology of the halophytic vegetation at Lake Ellesmere, New Zealand *J. Ecol.* 41 (1953), 106-122
3. Sears, P.D. and **Evans, L.T.** Pasture growth and soil fertility. III. The influence of red and white clovers, superphosphate, lime, and dung and urine, on soil composition, and on earthworm and grass grub populations. *N.Z. J. Sci. Technol.* 35: Suppl. 1 (1953), 42-52

### 1956

4. **Evans, L.T.** Chasmogamous flowering in *Viola palustris* L. *Nature*, Lond. 178 (1956), 1301

### 1957

5. **Evans, L.T.** The broad bean. In Experimental control of plant growth by F.W. Went. *Chronica Bot.* 17 (1957), 124-128

### 1958

6. **Evans, L.T.** *Lolium temulentum* L., a long-day plant requiring only one inductive photocycle. *Nature*, Lond. 182 (1958), 197-198

### 1959

7. Morley, F.H.W. and **Evans, L.T.** Flower initiation in *Trifolium subterraneum* L. II. Limitations by vernalization, low temperatures, and photoperiod, in the field at Canberra. *Aust. J. Agric. Res.* 10 (1959), 17-26
8. **Evans, L.T.** Flower initiation in *Trifolium subterraneum* L. I. Analysis of the partial processes involved. *Aust. J. Agric. Res.* 10 (1959), 1-16
9. **Evans, L.T.** The use of chelating reagents and alkaline solutions in soil organic-matter extraction. *J. Soil Sci.* 10 (1959), 110-118
10. **Evans, L.T.** and Russell, E.W. The adsorption of humic and fulvic acids by clays. *J. Soil Sci.* 10 (1959), 119-132
11. **Evans, L.T.** The chemical basis of climatic response by plants. *Proc. R. Aust. Chem. Inst.* 26 (1959), 222-224
12. **Evans, L.T.** Environmental control of flowering in *Vicia faba* L. *Ann. Bot.* 23 (1959), 521-546

#### 1960

13. **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. I. Effect of plant age and leaf area on sensitivity to photoperiodic induction. *Aust. J. Biol. Sci.* 13 (1960), 123-131
14. **Evans, L.T.** The influence of temperature on flowering in species of *Lolium* and in *Poa pratensis*. *J. Agric. Sci.* 54 (1960), 410-416
15. **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. II. Evidence for inhibitory and promotive photoperiodic processes involving transmissible products. *Aust. J. Biol. Sci.* 13 (1960), 429-440
16. **Evans, L.T.** The influence of environmental conditions on inflorescence development in some long-day grasses. *New Phytol.* 59 (1960), 163-174
17. Review of 'Anatomy of Seed Plants' by K. Esau. *Aust. J. Sci.* 23 (1960), 93

#### 1962

18. **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. III. The effect of anaerobic conditions during photoperiodic induction. *Aust. J. Biol. Sci.* 15 (1962), 281-290
19. **Evans, L.T.** Day-length control of inflorescence initiation in the grass *Rottboellia exaltata* L.f. *Aust. J. Biol. Sci.* 15 (1962), 291-303

20. Morse, R.N. and **Evans, L.T.** Design and development of CERES—an Australian phytotron *J. Agric. Engng Res.* 7 (1962), 128-140 (*This paper became a Citation Classic*)

21. **Evans, L.T.** CERES: An Australian phytotron. *Nature*, Lond. 195 (1962), 1142-1143

### 1963

22. **Evans, L.T.** (Ed.). *Environmental Control of Plant Growth*, 449 pp. Academic Press: New York, 1963

23. **Evans, L.T.** Extrapolation from controlled environments to the field. In *Environmental Control of Plant Growth*, pp. 421-437 Academic Press Inc.: New York, 1963

### 1964

24. **Evans, L.T.** and Wardlaw, I.F. Inflorescence initiation in *Lolium temulentum* L. IV. Translocation of the floral stimulus in relation to that of assimilates. *Aust. J. Biol. Sci.* 17 (1964), 1-9

25. **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. V. The role of auxins and gibberellins. *Aust. J. Biol. Sci.* 17 (1964), 10-23

26. **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. VI. Effects of some inhibitors of nucleic acid, protein, and steroid biosynthesis. *Aust. J. Biol. Sci.* 17 (1964), 24-35

27. Williams, R.F., **Evans, L.T.** and Ludwig, L.J. Estimation of leaf area for clover and lucerne. *Aust. J. Agric. Res.* 15 (1964), 231-233

28. **Evans, L.T.**, Wardlaw, I.F. and Williams, C.N. Environmental control of growth. In *Grasses and Grasslands*, pp. 102-125. Ed. Barnard, C. McMillan: London, 1964

29. **Evans, L.T.** Reproduction. In *Grasses and Grasslands*, pp. 126-153. Ed. Barnard, C. (McMillan: London), 1964

### 1965

30. **Evans, L.T.** Photoenvironment. Rapporteur's report. In *Recent Progress in Photobiology*, pp. 187-212. Ed. Bowen, E.J. Proc. 4th Int. Congr. Photobiol. Blackwell: Oxford, 1965

31. **Evans, L.T.**, Hendricks, S.B. and Borthwick, H.A. The role of light in suppressing hypocotyl elongation in lettuce and *Petunia*. *Planta* 64 (1965), 201-218

32. Lane, H.C., Cathey, H.M. and **Evans, L.T.** The dependence of flowering in several long-day plants on the spectral composition of light extending the photoperiod. *Am. J. Bot.* 52 (1965), 1006-1014
33. **Evans, L.T.**, Borthwick, H.S. and Hendricks, S.B. Inflorescence initiation in *Lolium temulentum* L. VII. The spectral dependence of induction. *Aust. J. Biol. Sci.* 18 (1965), 745-762
34. Ludwig, L.J., Saeki, T. and **Evans, L.T.** Photosynthesis in artificial communities of cotton plants in relation to leaf area. I. Experiments with progressive defoliation of mature plants. *Aust. J. Biol. Sci.* 18 (1965), 1103-1118
35. Review of 'Essays on Crop Evolution'. ed. J. Hutchinson. *Aust. J. Sci.* 28, 132 (1965)

#### 1966

36. **Evans, L.T.** Abscisin II: Inhibitory effect on flower induction in a long-day plant. *Science* 151 (1966), 107-108
37. Knox, R.B. and **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. VIII. Histochemical changes at the shoot apex during induction. *Aust. J. Biol. Sci.* 19 (1966), 233-245
38. **Evans, L.T.** and Wardlaw, I.F. Independent translocation of <sup>14</sup>C-labelled assimilates and of the floral stimulus in *Lolium temulentum*. *Planta* 68 (1966), 319-326
39. Review of 'The Growth of Cereals and Grasses'. eds. F.L. Milthorpe, J.D. Ivins. *Aust. J. Sci.*, (1966)

#### 1967

40. Rijven, A.H.G.C. and **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. IX. Some chemical changes in the shoot apex at induction. *Aust. J. Biol. Sci.* 20 (1967), 1-12
41. Rijven, A.H.G.C. and **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. X. Changes in <sup>32</sup>P incorporation into nucleic acids of the shoot apex at induction. *Aust. J. Biol. Sci.* 20 (1967), 13-24
42. King, R.W. and **Evans, L.T.** Photosynthesis in artificial communities of wheat, lucerne, and subterranean clover plants. *Aust. J. Biol. Sci.* 20 (1967), 623-635
43. **Evans, L.T.** and Rijven, A.H.G.C. Inflorescence initiation in *Lolium temulentum* L. XI. Early increases in the incorporation of <sup>32</sup>P and <sup>35</sup>S by shoot apices during induction. *Aust. J. Biol. Sci.* 20 (1967), 1033-1042

44. King, R.W., Wardlaw, I.F. and **Evans, L.T.** Effect of assimilate utilization on photosynthetic rate in wheat. *Planta* 77 (1967), 261-276 (*This paper became a Citation Classic*)
45. Review of 'Light as an Ecological Factor'. eds. R. Bainbridge *et al.* *Aust. J. Sci.* 30, 380, 1967

#### 1968

46. King, R.W., **Evans, L.T.** and Wardlaw, I.F. Translocation of the floral stimulus in *Pharbitis nil* in relation to that of assimilates. *Z. Pflanzenphysiol.* 59 (1968), 377-388
47. **Evans, L.T.** Photosynthesis under natural conditions. In *Penguin Science Survey, 1968 Biology*, pp. 73-92 Ed. A. Allison. Penguin: England, 1968
48. Knox, R.B. and **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. XII. An autoradiographic study of evocation in the shoot apex. *Aust. J. Biol. Sci.* 21 (1968), 1083-1094

#### 1969

49. King, R.W. and **Evans, L.T.** Timing of evocation and development of flowers in *Pharbitis nil*. *Aust. J. Biol. Sci.* 22 (1969), 559-572
50. **Evans, L.T.** Ed. *The Induction of Flowering*, 483 pp. Macmillan: Melbourne, 1969
51. **Evans, L.T.** A short history of the physiology of flowering. In *The Induction of Flowering*, 1-13. Ed. **L.T. Evans**. Macmillan: Melbourne, 1969
52. **Evans, L.T.** *Lolium temulentum* L. In *The Induction of Flowering*, pp. 328-349. Ed. **L.T. Evans**. Macmillan: Melbourne, 1969
53. **Evans, L.T.** The nature of flower induction. In *The Induction of Flowering* 457-480 Ed. **L.T. Evans**. Macmillan: Melbourne, 1969
54. **Evans, L.T.** Inflorescence initiation in *Lolium temulentum* L. XIII. The role of gibberellins. *Aust. J. Biol. Sci.* 22 (1969), 773-786
55. **Evans, L.T.** and King, R.W. The role of phytochrome in photoperiodic induction of *Pharbitis nil*. *Z. Pflanzenphysiol.* 60 (1969), 277-288
56. **Evans, L.T.** The phytotron design. In *Proc. Conf. Phytotronique, London, 1964*, pp. 42-44 Eds. Chouard, P. and de Bilderling, N. Natl. Centre Sci. Res.: Paris, 1969

57. **Evans, L.T.** and Knox, R.B. Environmental control of reproduction in *Themeda australis*. *Aust. J. Bot.* 17 (1969), 375-389

#### 1970

58. **Evans, L.T.** and Rawson, H.M. Photosynthesis and respiration by the flag leaf and components of the ear during grain development in wheat. *Aust. J. Biol. Sci.* 23 (1970), 245-254

59. Rawson, H.M. and **Evans, L.T.** The pattern of grain growth within the ear of wheat. *Aust. J. Biol. Sci.* 23 (1970), 753-764

60. **Evans, L.T.**, Dunstone, R.L., Rawson, H.M. and Williams, R.F. The phloem of the wheat stem in relation to requirements for assimilate by the ear. *Aust. J. Biol. Sci.* 23 (1970), 743-752

61. **Evans, L.T.** and Dunstone, R.L. Some physiological aspects of evolution in wheat. *Aust. J. Biol. Sci.* 23 (1970), 725-741. (*This paper became a Citation Classic*)

62. **Evans, L.T.**, Knox, R.B. and Rijven, A.H.G.C. The nature and localization of early events in the shoot apex of *Lolium temulentum* during floral induction. In *Cellular and Molecular Aspects of Floral Induction*, pp. 192-206. Ed. Bernier, G. Longman: London, 1970

63. **Evans, L.T.** Controlled environments in analysis of photosynthetic characterisation. In *Prediction and Measurement of Photosynthetic Productivity*, pp. 421-426. Proc. IBP/PP Tech. Meet., Trebon, Czech., 1969. Centre for Agric. Publ. and Document.: Wageningen, 1970

#### 1971

64. **Evans, L.T.** Evolutionary, adaptive, and environmental aspects of the photosynthetic pathway: assessment. In *Photosynthesis and Photorespiration*, pp. 130-136. Eds. Hatch, M.D., Osmond, C.B. and Slatyer, R.O. Wiley-Interscience: New York, 1971

65. Rawson, H.M. and **Evans, L.T.** Contribution of stem reserves to grain development in a range of wheat cultivars of different height. *Aust. J. Agric. Res.* 22 (1971), 851-863

66. **Evans, L.T.** In search of the limitations to yield in wheat. *J. Indian Bot. Soc.* 50A (1971), 560-570

67. **Evans, L.T.** Flower induction and the florigen concept. *A. Rev. Plant Physiol.* 22 (1971), 365-394

68. **Evans, L.T.** and Dunstone, R.L. Evolution in wheat: a reply. *J. Aust. Inst. Agric. Sci.* 37 (1971), 340-341

### 1972

69. **Evans, L.T.**, Bingham, J. and Roskams, M.A. Pattern of grain set within ears of wheat. *Aust. J. Biol. Sci.* 25 (1972), 1-8
70. **Evans, L.T.** Storage capacity as a limitation on grain yield. In *Rice Breeding*, pp. 499-511. Int. Rice. Res. Inst.: Los Baños, Philippines, 1972
71. **Evans, L.T.** and Allaway, W.G. Action spectrum for the opening of *Albizia julibrissin* pinnules, and the role of phytochrome in the closing movements of pinnules and of stomata of *Vicia faba* *Aust. J. Biol. Sci.* 25 (1972), 885-893
72. **Evans, L.T.**, Bingham, J., Jackson, P. and Sutherland, J. Effect of awns and drought on the supply of photosynthate and its distribution within wheat ears. *Ann. Appl. Biol.* 70 (1972), 67-76

### 1973

73. **Evans, L.T.** Effect of light on plant growth, development and yield. In *Plant Response to Climatic Factors*, pp 21-35 Proc. of the Uppsala Symp. Ed. Slatyer, R.O. UNESCO: Paris, 1973
74. Dunstone, R.L., Gifford, R.M. and **Evans, L.T.** Photosynthetic characteristics of modern and primitive wheat species in relation to ontogeny and adaptation to light. *Aust. J. Biol. Sci.* 26 (1973), 295-307
75. Hsiao, T.C., Allaway, W.G. and **Evans, L.T.** Action spectra for guard cell  $Rb^+$  uptake and stomatal opening in *Vicia faba*. *Plant Physiol.* 51 (1973), 82-88
76. Review of 'The Way Ahead in Plant Breeding'. ed. F.G.H. Lupton *Search* 4 (1973), 447

### 1974

77. Dunstone, R.L. and **Evans, L.T.** Role of changes in cell size in the evolution of wheat. *Aust. J. Plant Physiol.* 1 (1974), 157-165
78. Lush, W.M. and **Evans, L.T.** Translocation of photosynthetic assimilate from grass leaves, as influenced by environment and species. *Aust. J. Plant Physiol.* 1 (1974), 417-431
79. Lush, W.M. and **Evans, L.T.** Longitudinal translocation of  $^{14}C$ -labelled assimilates in leaf blades of *Lolium temulentum*. *Aust. J. Plant Physiol.* 1 (1974), 433-443

80. Sofield, I., **Evans, L.T.** and Wardlaw, I.F. Effects of temperature and light on grain filling in wheat. In *Mechanisms of Regulation of Plant Growth* Eds. Bieleski, R.L. Ferguson, A.R. and Cresswell, M.M. Wellington, *R. Soc. N.Z., Bull.* 12, pp. 909-915, 1974

**1975**

81. **Evans, L.T.** (Ed.). *Crop Physiology—Some Case Histories*, 374 pp. Cambridge University Press: London, 1975
82. **Evans, L.T.** Crops and world food supply, crop evolution, and the origins of crop physiology. In *Crop Physiology—Some Case Histories*, pp. 1-22. Ed. Evans, L.T. Cambridge University Press: London, 1975
83. **Evans, L.T.**, Wardlaw, I.F. and Fischer, R.A. Wheat In *Crop Physiology—Some Case Histories*, pp. 101-149. Ed. Evans, L.T. Cambridge University Press: London, 1975
84. **Evans, L.T.** Physiological basis of crop yield. In *Crop Physiology—Some Case Histories*, pp. 327-355. Ed. Evans, L.T. Cambridge University Press: London, 1975
85. **Evans, L.T.** Sulphur in Agriculture. In *Sulphur in Australasian Agriculture*, pp. 3-8 Ed. McLachlan, K.D. Sydney University Press: Sydney, 1975
86. **Evans, L.T.** *Daylength and the Flowering of Plants*. Menlo Park, Calif., U.S.A., W.A. Benjamin, 122 pp., 1975
