

Contents Volume 23 Number 1**June 2012****Historical articles:**

Demonstrating That Continents Had Drifted: Paleomagnetic Measurements at the Australian National University 1952–1964

F. E. M. Lilley 1–33.

National Identity and International Science: The Case of *Acacia*

Libby Robin and Jane Carruthers 34–54.

Biographical memoir:

Athelstan Laurence Johnson Beckwith 1930–2010

Ian D. Rae 55–76.

Reviews

Compiled by Sara Maroske 77–89.

Hilary Howes on *The Biggest Estate on Earth: How Aborigines Made Australia*

[Bill Gammage] 77–78.

Peter Hobbins on *Camouflage Australia: Art, Nature, Science and War*

[Ann Elias] 78–80.

Chris Soeterboek on *Global Industry, Local Innovation: The History of Cane Sugar Production in Australia, 1820–1995*

[Peter D. Griggs] 80–81.

Danielle Clode on *Northern Voyagers: Australia's Monsoon Coast in Maritime History*

[Alan Powell] 81–82.

Gary Presland on *Burke & Wills: the Scientific Legacy of the Victorian Exploring Expedition*

[E. B. Joyce and D. A. McCann (eds)] 82–83.

Wayne Orchiston on *The Great Melbourne Telescope*

[Richard Gillespie] 83–85.

Thomas A. Darragh on *Into the Unknown: The Tormented Life and Expeditions of Ludwig Leichhardt*

[John Bailey] 85–86.

Peter Hobbins on *Cane Toads: an Unnatural History* and *Cane Toads: the Conquest*

[Mark Lewis] 86–87.

A. M. Lucas on *The Eponym Dictionary of Reptiles*

[Bo Beolens, Michael Watkins and Michael Grayson] 87–88.

Bibliography of the History of Australian Science, No. 32, 2011

Compiled by Helen M. Cohn 90–106.

Cover illustration: Mt Wellington rises above Hobart with its dolerite cliffs, known as the 'Organ Pipes', evident below the summit (see Lilley pp. 1–33). The near-vertical remanent magnetization of the Tasmanian dolerite was an important early discovery of paleomagnetism. (Photo taken from Nutgrove Beach, January 1957.)
