Avifauna of Monash University Campus. A. L. A. MIDDLETON. *Emu* 69: 44-46.

The four right-hand columns of Table I, showing the annual occurrence of species, are in the wrong order. The correct order is:

First column under 1962	= 1962
Second " "	1963 = 1965
Third " "	1964 = 1963
Fourth " "	1965 = 1964

NOTICES

RAOU Field Investigation Scheme

The following cooperative scheme is organized by the RAOU to add to our knowledge of Australian birds:

NEST RECORD SCHEME

This is designed to get factual and quantitative data on all aspects of the breeding of Australian and New Guinea birds, especially as regards clutch-size, incubation and nestling periods, breeding seasons, and breeding success. Anyone who can record even one nest a season is encouraged to join. Help is needed especially in Western Australia, northern Queensland, and anywhere in central Australia. The requirements are entirely simple.

Full particulars from: D. G. Thomas, 9 Lallaby Road, Moonah, Tas. 7009, who has taken over organization of the scheme from S. Marchant.

LIBRARY

The library at Clunies Ross House will be open for the use of members on the second and fourth Thursday of each month from 1430 to 2100 hrs, starting on 9 October 1969. It will be closed from 25 December 1969 to 22 January 1970 inclusive, re-opening on 12 February 1970.

Issued: 8th September 1969.
