

PACIFIC CONSERVATION BIOLOGY

Volume 19

Number 2

Contents

EDITORIAL	
R and K strategies and the proliferation of scientific papers. <i>Sue Briggs.</i>	92
FORUM ESSAY	
Why transforming biodiversity conservation conflict is essential and how to begin. <i>M. Nils Peterson, Markus J. Peterson, Tarla Rai Peterson and Kirsten Leong.</i>	94
Invertebrate conservation in Australia: problems in policy and practice. <i>T. R. New and A. L. Yen.</i>	104
RESEARCH PAPERS	
Adapting to suburbia: bird ecology on an urban-bushland interface in Perth, Western Australia. <i>R. A. Davis and J. A. Wilcox.</i>	110
The breeding biology of the Forest Red-tailed Black Cockatoo <i>Calyptorhynchus banksii naso</i> Gould in south-western Australia. I. Characteristics of nest trees and nest hollows. <i>R. E. Johnstone, T. Kirkby and K. Sarti.</i>	121
The breeding biology of the Forest Red-tailed Black Cockatoo <i>Calyptorhynchus banksii naso</i> Gould in south-western Australia. II. Breeding behaviour and diet. <i>R. E. Johnstone, T. Kirkby and K. Sarti.</i>	143
Modelling the potential distribution of endangered, endemic <i>Hibiscus brackenridgei</i> on Oahu to assess the impacts of climate change and prioritize conservation efforts. <i>Corey Rovzar, Thomas W. Gillespie, Kapua Kawelo, Maggie McCain, Erin C. Riordan and Stephanie Pau.</i>	156
Northernmost record of Shepherd's beaked whale (<i>Tasmacetus shepherdi</i>) – a morphological and genetic description from a stranding from Shark Bay, Western Australia. <i>Carly Holyoake, David Holley, Peter B. S. Spencer, Chandra Salgado-Kent, Douglas Coughran and Lars Bejder.</i>	169
The distribution of the Fiji frogs, <i>Platymantis</i> spp.: New records and ramifications. <i>Tamara Osborne, Alivereti Naikatini, Clare Morrison, and Numia Thomas.</i>	175
BOOK REVIEWS	
Exploring the final frontiers: Cruise tourism in polar regions. <i>Ayesha Tulloch.</i>	183

Papers submitted to *Pacific Conservation Biology* are individually and fully peer reviewed by a minimum of two referees. Referees are independent of the editorial board and are chosen for their expertise in the subject area of the paper submitted. In addition, papers are vigorously reviewed and edited by the editorial board. Nonetheless, the views put by authors are their own and do not necessarily reflect those of the editors or the Publisher.

COPYRIGHT

Submission of a paper to *Pacific Conservation Biology* will be taken to imply that it presents original unpublished work, not under consideration for publication elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the Publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microfilm or any other reproductions of similar nature, and translations. Permission to publish illustrations must be obtained by the author before submission and any acknowledgements should be included in the captions.

Authors of papers in *Pacific Conservation Biology* should be subscribers to the journal. The Editor-in-Chief will ask whether any of the authors is a subscriber when confirming acceptance of a paper. If one or more authors is a subscriber, there will be no charge for publication, unless the authors have agreed to pay the charges for colour or accelerated publication (see below). If no author subscribes, the corresponding author will be invoiced a nominal Aud\$20 per page including a PDF of the published article and charges for colour or accelerated publication (see below). Whether or not one or more authors subscribes has no bearing on the acceptance of a paper. Authors may choose to include colour figures in their papers at a cost of Aud\$150 per page with a colour component. Authors may also accelerate publication to the next available issue without penalty to other authors by paying full page charges of Aud\$65 per page.

For your convenience subscription forms are enclosed. If you already subscribe, assist the conservation of biodiversity in the Pacific region by encouraging a colleague and/or library to subscribe.
