

PACIFIC CONSERVATION BIOLOGY

Volume 21 • Issue 3 • 2015

CONTENTS

EDITORIAL

The importance of authors ensuring referencing and page proofs are correct

M. Calver

173

FORUM ESSAY

Integrating rehabilitation, restoration and conservation for a sustainable jarrah forest future during climate disruption

G. W. Wardell-Johnson, M. Calver, N. Burrows and G. Di Virgilio

175

REVIEW

Natural history and conservation biology of the tooth-billed pigeon (*Didunculus strigirostris*): a review

N. J. Collar

186

RESEARCH PAPERS

What factors affect the density of cane toads (*Rhinella marina*) in the Solomon Islands?

P. Pikacha, T. Lavery and L. K.-P. Leung

200

Using high-definition aerial photography to search in 3D for malleefowl mounds is a cost-effective alternative to ground searches

S. Thompson, G. Thompson, J. Sackmann, J. Spark and T. Brown

208

Local and expert knowledge improve conservation assessment of rare and iconic Fijian tree species

G. Keppel, A. Naikatini, I. A. Rounds, R. L. Pressey and N. T. Thomas

214

Fauna-rescue programs can successfully relocate vertebrate fauna prior to and during vegetation-clearing programs

S. A. Thompson and G. G. Thompson

220

Termitaria are an important refuge for reptiles in the Pilbara of Western Australia

G. G. Thompson and S. A. Thompson

226

Habitat associations of a rare South Australian sea star (*Parvulastra parvivipara*) and a co-occurring chiton (*Ischnochiton variegatus*): implications for conservation

K. Liversage

234

When losing your nuts increases your reproductive success: sandalwood (*Santalum spicatum*) nut caching by the woylie (*Bettongia penicillata*)

M. Murphy, K. Howard, G. E. St J. Hardy and B. Dell
