## EDITORIAL STATEMENT

*Proceedings of the Royal Society of Victoria* is published twice yearly in an online, open-access format through an agreement between the Royal Society of Victoria and CSIRO Publishing. The *Proceedings* is now indexed in Elsevier's Scopus and has a CiteScore, which measures average citations received per document published in the serial. Scopus indexes 22,000 journals. The journal is also being digitised for the Biodiversity Heritage Library.

The Society invites original research articles, reviews and short communications for the *Proceedings*, from authors across the various disciplines of biological, physical and earth sciences, including multidisciplinary research, and on issues concerning technology and the applied sciences. Contributions on topics that are relevant to Victoria and the south-eastern Australian region are particularly encouraged. All contributions are subject to peer review and there are no page or colour charges involved.

Authors should consult papers published in Volume 128, part 1, for a guide to the format of manuscripts. Particular attention should be paid to the format of the listed references and their mode of citation in the text. In general, order references alphabetically. Note that for entries beginning with the same surname, one- and two-author entries precede those with multiple (three or more) authors; these multiple-author entries should then be ordered chronologically.

The use of images, in particular coloured illustrations, is encouraged. All images (photographs, tables, illustrations, graphs) must be supplied electronically:

- as separate files (not embedded in the text)
- with fonts embedded in the file
- as colour, black & white or grayscale
- in TIFF, JPG or high resolution PDF format
- numbered sequentially according to their appearance in the text
- preferably designed for one or two column width
- at a resolution of at least 300 dpi (for photos) and 800 dpi (for line artwork) at final size
- with lines thicker than 0.3 point.

Manuscripts should be submitted electronically by email to [editor@rsv.org.au](mailto:editor@rsv.org.au), with the word 'manuscript' in the subject bar.
