

Corrigenda

A Taxonomic Revision of *Alstonia* (Apocynaceae) in Australia

Paul I. Forster

Volume 5 Number 6, 18 December 1992

Figures 2, 3 and 4, pages 753, 755 and 757

During printing, these three figures were transposed.

Fig. 2, *Alstonia muelleriana*, appears on page 757, over the caption for Fig. 4.

Fig. 3, *Alstonia spectabilis* subsp. *spectabilis*, appears on page 753, over the caption for Fig. 2.

Fig. 4, *Alstonia spectabilis* subsp. *ophioxylodes*, appears on page 755, over the caption for Fig. 3.

The captions for these figures are in their correct positions.

A Further Note on *Acacia aneura* (Mimosoideae : Leguminosae)

Les Pedley, with a response by B.R. Randell

Volume 5 Number 6, 18 December 1992, page 769

Several words were omitted in error from the last paragraph of Dr Randell's response, completely changing her meaning, so that the words as printed say exactly the opposite of what she intended; by mistake she was not sent page proofs for checking before publication. The corrected text is given below, with the omitted words in italics:

This is a question which is unlikely to be elucidated by study of *herbarium specimens*, *but might be clarified by studies of* the genotypic variation within mixed populations. I very much hope that money will be found somewhere to support work to find the answers.

We apologise to Dr Randell for this mistake, and for the misspelling of her name in the text.
