

Corrigendum

Susceptibility of plant species in *Banksia* woodlands on the Swan Coastal Plain, Western Australia, to infection by *Phytophthora cinnamomi*.

B. L. Shearer and M. Dillon

Volume 44, Number 4 (1996), pp. 433–445

Page 440, the heading for Table 6 should read: 'Plant species of *Banksia* woodland for which individuals died in one third or more of the *Phytophthora cinnamomi* disease centres in which they occurred, from which the pathogen was relatively frequently isolated from recently dead plants (Group 5), and that occurred in three or more disease centres situated on the Swan Coastal Plain south of Perth'.
