Supplementary material S1. A survey on the relevance of Otago University postgraduate programmes in women's health to general practice

Demographic questions

Q1. Gender

- Male
- Female
- Gender diverse
- Prefer not to say

Q2. Total years of clinical experience (include all years e.g. training and post-fellowship)

Q3. Please choose one

- Vocationally registered General Practitioner (GP)
- General registrant
- In training – General Practice Education Programme (GPEP1; GPEP2, GPEP 3)
- In training – other vocational training programme

Please specify _____

Q4. Your region of practice

- Urban area (with population more than 1000 residents)
- Rural area (with population less than 999 residents)

Q5. Your type of practice (can choose multiple answers)

- General practice
- Sexual health clinic
- Family planning
- Other, please define

Q6. Your ethnicity

- NZ European
- Māori
- Pacific islander

- Chinese
- Indian
- Other (such as Dutch, Japanese), Please specify

Q7. I have completed

- Postgraduate Diploma in Obstetrics and Medical Gynaecology (PGDipOMG)
- Postgraduate certificate in Women's Health (PGCertWHlth)

Q1. I completed PGDipOMG in

- 2003
- 2004
- 2005
- 2006
- 2007
- 2008
- 2009
- 2010
- 2011
- 2012
- 2013
- 2014
- 2015
- 2016
- 2017
- 2018
- 2019

Q2. How relevant is the PGDipOMG curriculum to your current practice?

- Extremely relevant
- Very relevant
- Moderately relevant
- Slightly relevant

o Not relevant at all

Q3. How relevant is the learning in the distance-taught papers to your practice (please rate modules you completed)?

Paper 1 (OBGY 712): Pre and Early Pregnancy Care

Modules	Extremely relevant	Very relevant	Moderately relevant	Slightly relevant	Not relevant at all
1. Fertility regulation / contraception 2. Pre-conceptual counselling 3. Early pregnancy - normal pregnancy 4. Early pregnancy - abnormalities and screening					

Paper 2 (OBGY 713): Pregnancy and Postnatal Care in the Community

Modules	Extremely relevant	Very relevant	Moderately relevant	Slightly relevant	Not relevant at all
1. Pregnancy care in the community setting 2. Obstetric emergencies 3. Common disorders in pregnancy 4. Birth matters 5. Maternal wellbeing and lactation 6. The newborn					

Paper 3 (OBGY 715): Medical Gynaecology I

Modules	Extremely relevant	Very relevant	Moderately relevant	Slightly relevant	Not relevant at all
1. Sexual health and screening / sexually transmitted illnesses 2. Vulval problems / vaginal discharge 3. Menstrual disorders: hysterectomy / abnormal vaginal bleeding 4. Menstrual disorders: pelvic pain / dyspareunia 5. Menopause and Hormone Replacement Therapy					

Paper 4 (OBGY 716): Medical Gynaecology II

Modules	Extremely relevant	Very relevant	Moderately relevant	Slightly relevant	Not relevant at all
1. Infertility Urogynaecology / incontinence and prolapse 2. Adolescent gynaecology / family violence / sexual assault 3. Termination of pregnancy 4. Gynaecology oncology I 5. Gynaecology oncology II					

Would you like to expand on your answer on the relevance of distance-taught papers to your practice?

Q4. How relevant are the learning opportunities provided by the following in clinical training paper (OBGY717) to your practice?

	Extremely relevant	Very relevant	Moderately relevant	Slightly relevant	Not relevant at all
1. Six months clinical placement in a hospital and submission of log book 2. Attachment to family planning clinic 3. Attachment to antenatal clinic					

Would you like to expand on your answer on the relevance of clinical training paper to your practice?

Q5. How relevant is the learning in residential papers to your practice?

Residential course 1 (OBGY 718)

	Extremely relevant	Very relevant	Moderately relevant	Slightly relevant	Not relevant at all
1. Counselling regarding antenatal screening tests, examine an antenatal women and describe the process of normal birth 2. Recognise and assist with obstetric emergencies 3. Cardiotocography interpretation 4. Breastfeeding advice 5. Management of early pregnancy loss 6. Contraception, sexually transmitted infection and cervical smear 7. Procedure for TOP referral in New Zealand 8. Sexual abuse 9. Examination and resuscitation of newborn					

Residential course 2 (OBGY 719)

	Extremely relevant	Very relevant	Moderately relevant	Slightly relevant	Not relevant at all
1. Interpret basic antenatal screening tests 2. Management of obstetric and gynaecology emergencies 3. Medical conditions in pregnancy and the puerperium 4. Gynaecological conditions 5. Contraception 6. Gynaecological procedural skills (Intra uterine device insertion, pipelle biopsy) 7. Neonatal problems					

Would you like to expand on your answer on the relevance of residential papers to your practice?

Q6. How useful were the teaching methods for you in achieving your learning goals?

	Extremely useful	Very useful	Moderately useful	Slightly useful	Not useful at all
1. Six 2-h audio conferences by Zoom (for each distance-taught paper)					
2. Clinical placement for 6 months (for clinical training paper)					
3. Three-day workshop (for each residential course)					

Development of new postgraduate programmes

Q9. Would you be interested in a refresher course/workshop in obstetrics, gynaecology and women's health?

- Yes
- No

Q11. Why did you answer this way? If interested, please let us know your preferred topics of study and your preferred format of study (e.g. distance learning or hands-on training)

Q12. Would you be interested in a Master's programme with research component in obstetrics, gynaecology and women's health?

- Yes
- No

Q13. Please let us know your opinion (e.g. feasibility, barriers, topics of interest) about a Master's programme in obstetrics, gynaecology and women's health.
