> HAVE YOU HEARD?

The *Australian Energy Producers Journal* captures a complete record of upstream energy industry-leading knowledge, experience and solutions from the annual Australian Energy Producers Conference & Exhibition. Published to coincide with the conference, this world-class publication includes peer-reviewed papers, extended abstracts, and conference proceedings (including presentations and plenary videos) across geoscience, engineering, emission reduction, health, safety & environment, markets and business performance & governance.

> WHY PUBLISH WITH US?

- Build your reputation and be recognised for your expertise amongst your peers and competitors
- Showcase your work in a world-class publication accessed around the globe
- Indexed in a wide variety of international databases used by specialists in your field
- Retain copyright to use the work for business and customer purposes
- Professional copyediting for every paper

> DID YOU KNOW?

- All presentations from the conference are published in the journal and conference proceedings, providing a lasting online record of your contribution
- Access a range of tools on the *Australian Energy Producers Journal* website to measure the impact of your work, including:
 - » Who has cited your work and where
 - » Which fields your work has been cited in
 - » Online mentions of your work, including social media, news publications, policy references and more
 - » The most read papers by your colleagues.

Editor-in-Chief: Dr Steve Mackie
Geosim Consulting Pty Ltd and
University of Adelaide, Australia

CALL FOR PAPERS

Submissions for the 2025 Australian Energy Producers Conference & Exhibition will be open in August 2024.

Non-Member Company	\$4,488	Not available
Personal Subscription	\$561 for individual use only	\$990 for individual use only

> ABOUT AUSTRALIAN ENERGY PRODUCERS

Australian Energy Producers has roughly 200 members, comprising oil and gas explorers and producers active in Australia and companies providing goods and services to those explorers and producers.

Our member companies produce around 95 per cent of Australia's oil and gas.

The oil and gas sector plays a fundamental role in our nation's economy, providing essential energy to power businesses and homes in Australia and across the world. Our sector invests billions of dollars to generate reliable, secure and cleaner energy, creating jobs and economic growth for the communities in which we operate.

Australian Energy Producers supports net zero across the economy by 2050, consistent with the objectives of the Paris Agreement and the commitment of the Commonwealth Government.

Australian natural gas is pivotal to the energy system transformation in Australia and the region, providing the firm dispatchable energy required to unlock our renewable energy potential, and powering Australian industries including those processing the critical minerals necessary for net zero.

> ABOUT CSIRO PUBLISHING

The *Australian Energy Producers Journal* is published by CSIRO Publishing on behalf of Australian Energy Producers. CSIRO Publishing operates as an editorially independent science publisher within Australia's premier research group, Commonwealth Scientific and Industrial Research Organisation (CSIRO), and has been publishing journals since 1948.

Our internationally recognised publishing program includes journals, books and magazines and covers a wide range of scientific disciplines.
