*Marine and Freshwater Research*

### Supplementary Material

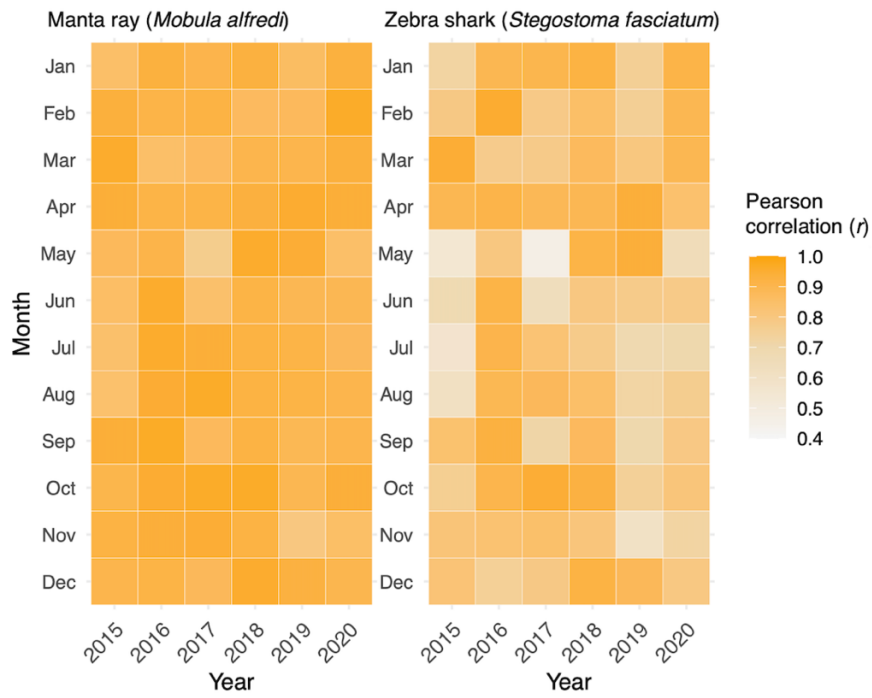

#### **Ocean warming projected to increase ecotourism opportunities to encounter iconic marine megafauna (manta rays and zebra sharks) off south-eastern Australia**

**Figure S1.** Pearson's correlation coefficients ( $r$ ) evaluating collinearity between species thermal habitat predictions created using satellite-observed and modelled sea surface temperature data for the period 2015–2020. Pearson correlation values are consistently high, ranging between 0.77 for manta ray thermal habitat predictions and 0.97 and between 0.47 and 0.95 for zebra shark thermal habitat predictions.
